

MEDICAL FOSTER HOME PROGRAM

VANJHCS IS SEEKING DEDICATED CAREGIVERS, with compassion, skills and a heartfelt desire to care for our disabled Veterans, with complex medical needs. The Medical Foster Home Program offers safe, long-term care in the home of an approved MFH Caregiver. It is an affordable, comprehensive care, housing alternative for Veterans.

Caregivers must have prior caregiving experience (formal or informal) and have the compassion and motivation to provide 24/7 supervision to Veterans placed in their home.
